Friendly Co-operation With British and Other Foreign Shipping Interests Urged.

Washington, January 21.-Formu lation of a policy for the development and maintenance of an Amer-ican merchant marine "in spite of all difficulties" brought to a close today the second annual convention of the National Merchant Marine association. The delegates also voted to send to congress and the nation a message expressing optimism over

An evident desire prevailed in the shipping war with Great Britain or other foreign nations and, although no official commitment was made, three speakers declared in favor of "friendly co-operation" between the United States and foreign shipping interests, asserting that a trade war would result disastrously.

Complete Concord of Union Essential to U.S. Fulfillment, Declares President-Elect

President-tect Wairen C. Hr. ung, making been requested by Clark Howell, editor of The Constitution, to laste a message to the people of the south, last night mrutabed the following statement to The Constitution:

"Of course, I have no message to the people of the south that I would not gladly utter to all the United States. Perhaps the south would be interested to know, however, of one ambition which I cherish. I want to be the instrumentality in establishing that complete concord of union which I hold to be essential to the American fulfillment. I realize how the political solidarity of the south followed the unfortunate days of the civil war. I know solidarity has been encouraged on the one hand, and I think I understand the desire to break it on the other hand. It is not specifically a republican ambition. It is rather to be accredited to a desire to establish complete mutuality of purpose and oneness of

"There is little left of the old time hostilities, and there isn't any occasion for any section of America to pin its aspirations to the fortunes of one party. I think it is fair to assume that all political parties mean to do best for our common country. As a republican, I believe there is great significance in the coming Tariff congress, to be held in the city of Atlanta. I believe most cordially

in prospering America first.
"I do not see how we can retain our home markets, upon which American good fortune must be founded and at the same time maintain American standards of production and American standards of living unless we make other peoples with lower standards pay for the privilege of trading in the American market. Ours is the best market in the world, because we are largest in consumption and the ablest to buy. The application lies in a perfectly justifiable ambition to make the southland as industrially eminent as the states of the north and east. There ought to be the flame of in dustry here in exceptional significance, because of your vast nat-

"Your people want precisely the same things which are found in the natural ambitions of north and west. There isn't the slightest excuse for a sectional line in America. We are one people, with one flag, and it is folly to allow long-time prejudices to stand in the way of the fullness of understanding and the utmost cordiality of relationship.

of relationship.

"The people of the south are just as much interested as any other geographical location in the development of an American merchant marine. Out of our abundance of resources, out of our greater ability to produce and out of our boasted American efficiency ought to come American eminence in world-wide trade. We ought to send our cargoes from southland ports just as numerously as we do from northern and western ports. Of course, as a general rule, we can not sell where we do not buy, but with a rational accompile policy as fagurarded in protective tariffs, we can buy the economic policy safeguarded in protective tariffs, we can buy the things, the production of which is not essential to our own good fortune, and expand our trade with those of whom we buy to supply our own needs which cannot be supplied here at home.

"I am sure the incoming administration wishes to see, figuratively speaking, every southern port, whitened by the sails of commerce and know that our carriers are taking measurements.

merce and know that our carriers are taking messengers of good-will and amity along with our cargoes to all the marts of the earth.

and amity along with our cargoes to all the marts of the earth.

"I should like the people of the south to believe the incoming administration is highly sympathetic with all its aspirations. I should like your people to believe that as chief executive I want to be understood as I, myself, wish to understand the people of the southland. In understanding is the avenue to complete accord and concord. Therein we shall find the way to that higher achievement which shall be the fulfillment of our highest aspirations."

PASTOR SAYS CHARGES ARE "INFERNAL LIE"

Friends Try to Get Minister to Apologize, But Fail-Will Discuss Matter in Pulpit, He Asserts.

Dr. Caleb A. Ridley, pastor of Central Baptist church, who led the movement last year against alleged suggestive clothes and immorality in and around the city bathing pools, was arrested early last night on charges made by Mrs. J. B. Hamilton, a neighbor of the Ridleys on Cooper street, that the minister had made insulting adances to her yesterday afternoon.

The arrest of the minister followed his refusal to make apologies to ds who had wrested a gun from her husband while he was attempting to reach within firing distance of the minister. Dr. Ridley was released on a cash bond of \$100 later by Night Police Chief E. L. Jett. In a signed statement, Dr. Ridley vigorously asserted that "the en-

ire thing is an infernal lie." He made a flat denial of the charges. and stated that he would discuss the matter fully in his sermons

Gordon, city father and bond issue advocate, and John Mc-Clelland, exalted ruler of Atlanta Elks, full of ribbons, badges, and oratory, went to the Terminal station last night to give President elect Harding the heartfelt wel come of their city and remained aboard his train to give bim as fine an example of southern chivalry as has been displayed since mint juleps went out of fashion.

For rather than interrupt the discourse of the only republican who has broken the solid south since it ecame solidified, these Atlantant braved the peril of a night ride to Macon without a single one of them possessing any claim to a Pullman berth or a pair of pajamas or nightshirt.

How It Happened. Here's how it all happened: The president-elect had been invited to stay awhile in Atlanta, but on ac count of having to build a cabinet, an association of nations, a congres sional program, and a few other things of minor importance, all be tween now and March 4. Senator Harding decided that he would have to forego the pleasure for the time But knowing that he was passing

through Atlanta, hesitating here, as it were, for fifteen minutes, the mayor and his associated Atlantans decided that it would be every different kind of a shame if didn't let the successor of Woodrov Wilson know just how glad At lanta was for him to breathe its air for a limited period of time,

They told the next president these things in words that didn't lack in eloquence, and it so impressed the former publisher of The Marion Star that he needs must reply an

Evincing a spirit of a new bond between the south and north in which both sections shall in the future co-operate with him as he enters his duties as chief executive of the United States, urging the further development merce through southern ports, and declaring for the first time since he was elected that the republican administration would not destroy the federal reserve system, President-elect Warren G. Harding issued a message to The Constitution Friday night for the entire southland. With all cares of public duties temporarily placed in the back-ground and determined to enjoy at least a few weeks of rest in Florida before he enters the white house, he arrived in Atlanta aboard the Royal Palm special Friday evening at 9:20 o'clock and was greeted at the Terminal station by a large number of Atlantas, who, Irrespective of party affiliations, gave him typical enthusiastic welcome

Mayor Presents Harding. As Mayor James L. Key entered the private car, D. K. Roberts, secretary of the Harding club of Georgia, introduced him to the senator, and after a battery of cameras had taken flashlight pictures of the group, the party adjourned to the rear platform, where Mr. Harding was presented by the mayor.

The president-elect in addressing the crowd declared his welcome by the south was one of his most delightful experiences since the election. At every point where his train spend his vacation on a houseboat party, southerners have made his passing visit of more enjoyment than he had ever expected, he said.

"I want to know the people of the south. It is my desire for them to understand me and to know that I am working for their interests," he said. "As a newspaper man, I might pass through your city un-noticed, yet as I come as your president-elect, you give me a welcome which has deeply affected me and is appreciated.

New Union Indicated. "As I clasped hands with your mayor a few moments ago, I remembered the first indication of a new union between the south and north in this city many years ago. I was passing through Atlanta and our train was delayed. I walked through your business section, and in one display window I noticed a scene showing an old confederate Continued on Page 10, Column 2.

Forsyth to Honor In Military Way, Hero of World War

Macon, Ga. January 21.—(Special) The body of Lieutenant Walter M Officials See Crippled Little, former manager of the Hotel Federal Machine If Sen-Dempsey in Macon, and a hero o he world war, reached Forsyth this ate Fails to Ratify Nom-

Washington January 21.-Dip-ping their brushes into the probability that the republican majority in the senate would refuse to confirm most of the 20,000 nominations made by President Wilson, some administration officials nainted today a picture of a creaking government machine, floundering along for a time after March 4, with a lot of

inations.

important cogs missing. Failure of the republican sena tors at a secret conference today to reach any decision as to the nom inations set the canvas. Republican leaders weren't inclined to take the picture seriously.

The question of the nominations occupied much of the time of the republican conference. The official announcement said no decision was reached, but some of those attending the meeting said privately that there had been a "tacit" agreement for the republican members of committees to take the nomina tions coming under their jurisdic tion, study conditions in the executive departments and then determine whether failure to keep the democratic appointees in office after March 4 would result in any embarrassment of those departments now in Washington are holding office by virtue of recess appointments. Should the senate fail to act on their nominations before this congress quits on March 3, it is explained they will automatically be out of jobs under the law. These officials include all seven member of the shipping board, two members of the interstate commerce commission, three chief officials in the patent office and five assistant secretaries of the treasury .

Some Emergencies Then, too, there are a lot of post masters, federal judges, marshall federal attorneys, registrars of land offices and the like over the country who are in the same position Some of these are classed as emergency cases and the republican leaders have indicated that where there is found to be an emergency action will be taken.

Confirmation of President Wil son's appointments by the senate would carry some of these officials over in the republican administra-tion for terms ranging from one tion for terms ranging from one year to years in excess of the four, for which Mr. Harding has been elected. Senator Lodge, of Massachusetts, republican, leader, has announced that he does not propose to have the democratic administration fill istration fill up a lot of bureau chiefships in the army and navy for the incoming administration, and in this he has the support of his republican colleagues.

Coal Company Counsel Says Calder Bill Enactment Would Stop Exports,

Washington, January 21.—Destruction of the export coal trade of the United States, "absolute and complete" would result from enactment of the Calder coal regulation bill, Ral h Crews, counsel for the Consolidation Coal company, one of the larger producers of bituminous, asserted today at hearings on the measure before the senate manufactures committee.

American producers, Mr. Crews

asserted today at hearings on the measure before the senate manufactures committee.

American producers, Mr. Crews said, could not guarantee deliveries in competition with British mines if, as the bill proposes, authority were given the president and the federal trade commission to declare an emergency in the industry in times of peace, and divert coal shipments to meet it. He cited a contract for 750,000 tons of coal to be delivered abroad which his company, he said, had held up pending a decision on the bill.

George H. Cushing, managing director of the American Wholesale Coal association, asked the committee for "three weeks' delay" in consideration of the bill, in order that its proposals might be digested by the trade he represented.

"That would mean no chance of enactment at this session, that's all." Senator Kenyon, republican, Iowa, remarked.

Chai-man La Follette announced that it was probably the purpose of the committee to allow some additional days for the appearance of interested parties, but that the committee would proceed to a decision immediately thereafter.

INQUIRY CLOSED ON EXPERIENCES OF BALLOONISTS

U. S. RECOGNITION

UP TO MEXICANS,

SAYS WASHINGTON

Washington, January 21.—The next me e in the matter of American recognition of Mexico is up to the new government at Mexico City, state department officers said today after reading press dispatches quoting President Obregon with regard to Mexican policies, and especially that dealing with recognition by foreign governments.

Officials withheld comment on the new president's statement that he did not think commissions should be aprited to study conditions in Mexico. Secretary Colby has suggested to the Mexican government that as a preliminary to recognition a joint commission be named to settle the controversies between the two countries. This communication is now in the hands of the Mexican government.

In diplomatic circles here the opinion still is held that the Obregon government will not seek recognition from the Wilson administration, preferring to wait until after the new administration comes into office March 4 before taking up the question.

Berlin, January 21.—Direct warning to the United States and to the alited powers that they can not expect to open trade relations with roussia or otherwise deal with the soviet government without giving due consideration to Germany is to be found in one of the most important speeches that Foreign Minister von Simon has delivered in months.

The foreign minister made his statement in the reichttag Friday in response to internellations from the independents regarding German-Russian relations.

"There is a strong desire on the part of the United States to use Russian concessions which have been obtained and to resume commercial relations with Russia," Von Simons declared. "This we must watch keenly. England also is making earnest attempts to open trade relations, but no country will be able to do business with Russia without Germany."

The foreign minister's speech carried a note of sympathy for Russia throughout, though resumption of political relations was declared impossible at present.

Society City's Federated Club Women Hold Semi-Annual Meeting

Mrs. Albert Thornton, Sr., presided over the semi-annual meeting of the City Federation of Women's clubs, held yesterday afternoon in the auditorium of the chamber of commeyce, when more than a hundred women were present, nine-ty-three of these representing the various federated organizations of the city along educational, industrial, musical artistic benevolent and social lines.

Mrs. Thornton opened the meeting with a message from the president of the General Federation of Women's clubs. Mrs. Thomas Winter, of Minnesota, who made a strong plea for federation not only in communities, cities and states, but federation with the general federation, Mrs. Thornton urged the city federation to join the general federation. Mrs. Thornton enumerated among activities during the fall the part the federated women had taken in the Red Cross roll call, when, to the credit of women's organizations, more than \$8,000 had been accounted of the \$22,000 collected.

Indorsement was given to house bill 12,078, which asks that the appropriation for household economics be extended to reach the home as well as the schools. Indorsement was given the Shepard-Towner bil, which looks to the care of mothers in maternity.

A resolution was adopted indorsing the plea recently made here by Dr. Rosalle Morton, chairman of the interlational Serbian committee, and asking the aid of all federated women.

Other Activities

She mentioned the part the federated women had taken in the celebration of Armistice day in co-operation with the chamber of commerce and other civic bodies, under direction of the community service

Southern Tariff Association.

Mrs. Roxalie Nixon, of New Orleans, secretary of the woman's division of the Southern Tariff association, invited the members of the city fed-ration to be present at the sessions of the tariff congress, to convene here January 27, 28 and 29. She stressed the fact that the association is non-political and non-partisan, and dealt with the interest of the southern states and their especial products and resources. She explained that the south was brought into keen competition with foreign countries through their cheap labor and cheap production. She pointed out the protection therefore of the tariff which the association is asking for as a protection, thus making of the movement one economic and essentially southern in interest.

The celebration included community singing and speaking and the adoption of the poppy as the flower for Armistice day.

She mentioned the activity of the Writers' club in planting the authors' grove, and in the interest taken this year through organizations of the Uncle Remus birthday, even the Alliance Francaise having exercises in French.

She mentioned the strength of the federation in the part it took in creating public interest in the plea made for the necessary appropriation for the maintenance of the Carnegis library school and spoke of Reports Read.

Interesting reports were made by representatives of the Sheltering Arms, the Wesley Memorial hospital board and the Atlanta branch of the National Needlework guild, which has contributed over 66,000 garments to Atlanta's charitable organizations in sixteen years.

The meeting here adjourned in order that the civic film, "Slider-

Dresses of Fine Tricotine and Poiret Twills

Depicting the Mode for Late Winter And Early Spring

A little too chilly for the Suit alone and a little too warm for the Coat over the Suit, we can't wear Foulards or Taffeta Dresses this early in the season. Quite a problem and to solve it we have purchased for you a number of the latest moods of the mode in Poiret Twills and fine Tricotines. These Dresses are clever, decidedly fashionable and embodying the better ideas of Dame Fashion for these trying 'Tween Season Days. With braidings and embroidery in self and contrasting colors and in striking and original designs, in combination with Crepe de Chine they represent unusual values and were really meant to be sold for as much as \$50.00 and \$60. Today we offer the selection of 25

In another group we have Dresses in Tricotine which have a novel effect in wide hip sashes of Tricolette. These are very smart and attractive and are developed with a degree of artistry seldom seen in Dresses at so low a price as we offer these. Of, course they weren't meant to be sold for this price, but conditions made it possible for us to secure them for you and we did. 45 dresses are in the selection to be \$45.95 sold today for, each...

Sales of White Goods. Sheeting, Pillowcases Blankets and Comforts Continue

In the Domestics and Wash Goods Section on the Main Floor the values offered in White Fabrics, Sheeting, Pillowcases, Blankets, Linens, Bed Spreads are unusually tempting. The material is from the regular stock, and represents substantial reductions from prices originally asked by us, thus assuring you of actually being able to save money and of obtaining worth-while merchandise. Complete announcements of values in these departments will be made to you on Monday.

Today Today Nine Nine

When we were offering what we considered one of the best shirt values we had seen, several men said when looking at the shirts: "Yes, they are good values, but they are the same shirt that sold in 1912 and 1913 for around a dollar and a half." And they were, so what could we say. But NOW, here is a shirt which sold for around two dollars and two and a half as far back as you want to go. Shirts made from woven madras of exceptionally good quality. Shirts in the New Patterns for Spring. Shirts which are carefully finished with double cuffs and with pre-shrunk collar bands. You won't be able to find anything wrong with this shirt offering we are sure. Every shirt has been laundered thoroughly, they will not shrink or lose color. And it is a great pleasure to us to be able to announce this offering, we are glad to be able to procure Shirts of this quality for the men of Atlanta. We have only 561/2 dozen of them and they go on sale today in the Store for Men, Main Floor. We hope there won't be one of them left when night comes. There shouldn't be at this price

Let Us Tell You Something About Eating

To really enjoy a noonday meal you want to be certain first that the food you eat is going to be properly prepared. If it is chicken, you want to know that it is fresh, tender and succulent. Whatever it is you want to feel that you could go behind the scenes and come back with just as good an appetite. We don't believe there is anyone who has ever eaten in the Tea Room who won't tell you that the food is delicious. It is cooked as you yourself want your food cooked at home, it is served as you would serve your food at home. Every thing is clean, every one is courteous. The people you see here in the Tea Room are your sort of people and the Tea Room itself is beautiful enough to inspire contentment, and contentment in turn assures the proper sort of digestive reaction.

If you are coming to the Tea Room for the first time don't fail to order Apple Pie. That will make a friend of you for life. The crisp deliciousness of the crust, the taste of the seasoned apples inside. And if you like chicken you will find a dozen ways to have it served on the Menu. This is a great place for the business man as well as for women and when all is said and done the prices we ask are decidedly mod-

A CHALLENGE TO

CIVIC PATRIOTISM. There is something inspiring in the unanimous action of council in submitting to the people of Atlanta a bond issue of \$8,850,000 for improvements which, if authorized, will do more to stimulate the development of the city than anything that has been done within the past two decades.

It augurs well that the movement starts out with the unanimous approval of the mayor and council, of the school board, of the superintendent of the schools, of the officials of the Parent-Teacher association, and of business men generally, who see the wisdom and economy of Atlanta's doing what every other progressive city in this country has done to assure permanent, steady and satisfactory growth_that is, use the credit of the city with which to build permanent improvements, payment for which will be borne in part by the coming generation that will enjoy the benefit of such expendi-

imit of more than \$16,000,000.

Of this, the city has used but \$4,000,000, leaving a bonding availability of more than \$12,000,000.

Council has already voted a special tax levy for this year that, in addition to regular taxation, will yield about \$1,250,000, one million of which will go to school improvements.

If the bond issue carries, we have official assurance that the special tax levy will be repealed. Without the bond issue the mu-

nicipal tax levy this year, including regular and special taxes, will be 1.70.

This would allow only \$1,000,000 for school improvements.

If the bend issue carries the tax rate will be only 1.50 this year, with \$8,850,000 available for public

So that with a very much smaller tax levy the bond issue will, if approved, give the city for absoutely necessary improvements ight times the amount that will be available from the higher taxation plan of the special levy.

In order to meet interest and the sinking fund requirements of the and issue, the legislature will be asked to amend the charter so as o provide that the jax rate of the ty shall under no conditions exgood 1.50, of which one-sixth, or .25 ats, is to be used exclusively r interest and sinking fund pures, thus providing for the payent of the entire bond issue ithin thirty years and covering

rest in the meantime. Until comparatively a few years Atlanta's tax rate was 1.50. d the city made a serious blunwhen it reduced the tax rate om 1.50 to 1.35. It has been nning behind ever since, and Il continue to run behind on the

Let no citizen dream for a mo ment that if this bond issue is defeated there will be no future spe cial tax levies.

IT IS ABSOLUTELY IMPOS-BIBLE FOR ATLANTA TO LIVE AND THRIVE ON A 1.25 TAX

very year for the past few years. There has been no way around it. It was either that, or bonds, or stagnation.

If bonds should be defeated now, an increased tax rate will be the only remedy, the difference being that under the bonding plan the city can get \$8,850,000 upon which to build absolutely essential improvements at a tax rate of only 1.50, which will pay all interest and the principal on the bonds within thirty years, or it will have to pay a tax rate of 1.70, which will yield only \$1,000,000 for Improvements that are imperative.

This opportunity is a challenge to the patriotism of every element of the city and of every man, woman and child in it. The city

A GOOD RIDDANCE.

Another "soviet ark" is due to sail away, Russia-bound, today, burdened with "reds" who came here to upset our plan of government only to be spewed out by decency and ostracised by righteous public sentiment.

The first "soviet ark" carried way Berkman and Goldmanbanished from our shores-with more than four hundred of their plotting, intriguing, anarchistic, deluded followers, whose purpose in life here was admittedly to dis-

rupt our government. Others have gone the same way, kicked out the back door by Uncle Sam, and now another "consignment" of undesirables is to be put upon the high seas today.

The bell-wether of this group of deportees is Ludwig G. A. K. Martens, erstwhile German citizen, Russian, who came here shortly after the signing of the armistice as the "soviet ambassa dor." and who has been here ever since, either under surveillance or under arrest, as the personal representative of the soviet regime in Russia.

With him are about fifty other andesirables who came here professing dissatisfaction with our Atlanta has a bonding allowance form of government and a deter-

mination to revolutionize it. As a rule, these alien agitators are men and women of mentality

above the average. Especially is this true of their leading spirits, such as Berkman,

Martens and Goldman; in fact, their ability makes them all the more dangerous.

Some of them possess real genius; but because their genius is misdirected and turned toward means and measures that are destructive rather than constructive, they constitute a menace to soclety and good government.

It is to be regretted that they choose to apply their gifts of intelligence and talent to combating law and order and social decency, thus making themselves their own worst enemies, instead of using them to increase the sumtotal of human hanniness. But so long as they do not, but choose the reverse course, they have no one but themselves to blame for the plight to which such activities inevitably lead.

And when our government loads a ship with these unwholesome aliens and sends them back into the unhappiness that awaits them across the sea it means to decent American society-foreign-born as well as native-"good riddance of bad rubbish!"

THE EARLY GARDEN.

Is the city garden "forcing the season," or is this "homey," neighborly acknowledgment, in The Cordele (Ga.) Dispatch, only another evidence of garden-growing in Georgia the year round-

"The Dispatch this day enjoys s meal from a seven-pound turnly raised in the city garden of a local banker. And now we have renewed strength and courage to go out an fight the day's business battles!"

Our splendid climate is indeed favorable to the all-year garder and the banker, and the home owner generally, may all reap health, pleasure and profit from it.

Where flowers grow in the open far into the "winter season," there is an equal chance for the products of the garden.

And the intelligent home gar-dener knows what those products mean in cutting down living expenses. They make the home-market at the home-door. Just From Georgia

HEALTH TALKS

LIME IN FOOD. In young animals-and man is animal—it has been observed that a diet poor in calcium or lime does not produce such rapid growth as does a diet in which there is suf-ficient calcium.

I mention this fact because I re-

elve so many letters from young persons who, In spite of my announcement forestalling such inquiries, seem to think that I can
tell them how to grow taller. I can't.
But I can tell them that young animais grow better if their food contains plenty of the lime or calcium
salts.

Now let us mention some staple foods which are poor in lime salts, and some others which are rich in lime salts, and leave the young persons to be generous to themselves in eating of the lime-rich foods.

Poor in Calcium—Meats, sugars,

ceans, cereals, fats, oranges, white oread, refined (polished) rice, pota-oes without skins. Rich in Calcium—Cheese, eggs, milk, turnips, prunes, whole wheat bread, chocolate, almonds, cabbage (raw), peanuts, lettuce, pelery, onions, tomatoes, cucumbers, spinch, asparagus, pineapple, oatmeal

Professor Sherman, of Columbia iniversity, advocates the mixture of university, advocates the mixture of simple lime carbonate with table sait in equal quantities in the salt cellar on the table, as a ready method of supplying the lime which is lacking in the average American dietary. Of course, if each member of the family consumes not less than one plut of fresh milk daily, and cheese is used as freely as it should be as a staple, there need be no anxiety about lime deficiency in the daily ration.

How to Make Out Your Income Tax Returns for 1921

United States supreme court, which case arose under the 1913 income taw law it was held that stock dividends were not income and there-fore were not taxable to the re-cipient. The court held that a stock come whether distributed or not. A cipient. The court held that a stock dividend took nothing from the corporation's treasury and added no value to the holdings of the individual stockholder; or, in other words, that it merely gave the stockholder more shares but no greater value than he possessed before. The 1913 law sald nothing about taxing stock dividends, so that the supreme court decision is really a definition or the promulgation of a principle. In the recently decided case (Macomber v. Eisner) which arose under the 1916 law (which specifically taxed stock dividends) the supreme court ruled as it did before, in the Towne v. Eisner case, namely, that stock dividends are not income and are therefore not taxable. The decision, being one of principle, therefore exempts stock dividends from all later federal income taxation (i. e., the 1918 law, etc.).

(This provision does not apply to corporations in which 50 per cent or more of the gross income has been derived from fovernment contracts on a cost-plus basis, or made between April 6, 1917. and November 11, 1918.) 3. Tax for Fiscal Year. When a return of a corporation

covers a fiscal year (any year's period other than the calendar that is. falls within calendar years, that is. Lalls within calendar years with different tax rates, the excess profits tax for the entire fiscal year will be computed under the rates applicable to the first part of the fiscal year, and again according to the rates effective for the last part of the fiscal year. Each tax will then be divided in proportion to the number of months falling in each of the calendar years, and the sum of the two will be used to determine the income tax vears, and the sum of the two will be used to determine the income tax credit. The income tax will then be computed twice as for a full year, using the entire income and entire cerdit, first with the rates of one caiendar year and then with the rates of the other calendar year. Here again, as with the excess rofits tax, each tax is divided in proportion to the number of months of the fiscal year failing within the two calendar years, and these proportionate amounts when added together will give the income tax for the fiscal year.

4. Personal Service Corporations.

4. Personal Service Corporations. personal service corporation is ons where the service rendered by the stockholders, rather than the capital employed, is a material fac-tor in producing income. Such corporations are not subject to the excess profits tax or the income tax, and file annual returns on Form 1065 (the same as partnarships). The specific exemption of \$3,000 will be reduced to the proportion which the non-personal service corporation income bears to the entire net income. The percentage rate of excess profits tax thus figured to the entire non-personal service income, if not less than 20 per cent, will be used to fix the excess profits tax of the personal service business income. However, if such rate is less than 20 per cent, the excess profits tax on the personal service income will nevertheless be 20 per cent, except where the excess profits tax as regularly computed on the entire net income and invested capital is less than 20 per cent, in which event the regular method of computing the corporation's tax shall be used. (In other words, the partly personal service corporation plan cannot be used.) The method above outlined does not apply to the 10 per cent come ax is levied against the encome tax is levied against the encome ax is levied against the encome tax is corporation income tax, but merely to the excess profits tax; the in-come tax is levied against the en-tire net income of the corporation no matter how derived.

2. Where substantially all the stock of a number of affiliated corporations is owned or controlled by the same interests. (Excluded are foreign corporations, personal service corporations and corporations organized after August 1, 1914 (beginning of the war) which are not sucsessors to then existing businesses and which derived 50 per cent or more of their gross income from government contracts made

between April 6, 1917, and November 11, 1918.)

In consolidated returns all intercompany profits, accounts and investments must be eliminated, and the actual net assets and liabilities of the group of companies properly determined. Intangibles are measured (as limited by the law) by the stock outstanding in the hands of the public, and stock owned by any of the corporations in the affiliation is excluded.

Impatience is perhaps the dead fruit of old age. I used to be able

The word "pal" is becoming opprobrious. It used to signify The toher night I called on a rare friendship, but of late every New York newspaper contains news of a "Gangster Killed by Pal." In fact nearly all the murders are committed by "pals" and nearly all the thieves are given over to the police by "pals."

Two young stenographers found themselves out of jobs in the recent slump. They were experts at makslump. They were experts at making home-made candy and so they mooled their small savings and opened a candy store near an exclusive east side section. In two months they have rented an adjoining store, installed marble fixtures and have six employees. Last week they were invited to return to their old positions at a reduced salary. They motored down, gave their ex-employers the Ritz stare and exited laughingly.

MINSTREL SHOW GIVEN AT EPISCOPAL CHURCH

An interesting minstrel was given at the Church of Incarnation, in West End, Thursday evening, under the direction of Harry Hubbel, before a large and appreciative audience. The feature of the program was an eccentric dance by Miss Calmes; while a sole of Mr. Hubbel was enjoyed also.

After the minstrel performance, a delightful little sketch, "Gwine to the Ball." was given by members of the cast and well received.

rruit of old age. I used to be able i stand a half-hour of the Chautaqua's lecture on Borneo, but here of late when I am in a crowd and hear someone say to another, "Well, well, how are you. I met is a population of 222.806 is related to the cherch and Fulton county, with a population of 222.806 is related to the cherch and the cherch On the other hand, Fulton county, with a population of 232,606, is relatively 9,000 short of the Georgia unit, while Fulton and DeKalb, the latter having a population of 44,051, combined, make a unit more than 30,000 in excess of the unit. It is not improbable, therefore, that Fulton and Rockdale may make the new fifth and DeKalb going to the ninth district, and Campbell and Douglas going to the fourth, the latter two giving the fourth practically its required deficit. In that even the city of atlanta would have two congressmen representatives of the fifth and ninth.

If DeKalb should be given to the nonth, which at present has only a 15,000 minus, it would become necessary to transfer an overplus population from that district to the seventh, which is now relatively 6,000 short in population.

However, the legislature may consider making Fulton and DeKalb one district, even though slightly top-heavy in population, and in that event Campbell and Douglas would go to the fourth, Rockdale to the eighth, while one of the big eighth district counties would be shifted to the ninth, it being observed that the eighth has relatively a twenty-thousand overplus. It has been suggested that the giving of Frankling ested the the giving of Fran

thousand overplus. It has been sug to the ninth, in that event would Tenth Is Short.

Tenth is Short.

It will be observed that the tenth is 20,000 short in population, while the first district, which joins it, has an overplus of more than 30,000. These differences, therefore, will be adjusted between the two districts named, and it has been auggested that the transfer of Burke to the tenth, the latter having a population of 30,000, would adjust the first, and give the tenth a 10,000 population surplus, which could be adjusted by transferring some counties to the sixth and the latter, which now has approximately the correct unit, could retransfer some counties to the third, which must also draw from the second, eleventh and twelfth to balance upits 35,000 minus. Both of the eleventh and twelfth however, are slightly short at present, and a detour may be made adding to the eleventh and twelfth from the first, and permitting the third to fill up from those districts. In that event the tenth would have to be filled from the eighth and not from the first.

At any rate those who have the

first. At any rate those who have the redistricting of Georgia at interest might well take a map of the state, trace the twelve present congressional districts, take the respective census figures by districts as above given and with the unit of 24.212 in mind, study out the big problem that is to confront the approaching Georgia legislature.

QUITMAN COUNCIL'S WAVE OF ECONOMY

Quitman, Ga., January 21.—(Special.)—A wave of economy has struck the city council squarely in the face, and the mayor has ordered the strictest economy in every department. It finally was decided as suggested by Chairman Elmer Williams, that the economy should come in the main not from cutting salaries below a living wage, but in restricting further improvements until more money was in the city treasuref.

The query specifically named the newly organized foreign trade finance corporation, capitalized at \$100,000,000. The ruling is, of course, general in its application and will affect the Federal International Banking company, of New Orleans, and the Southern Products Import and Export corporation, of South Carolina, also.

The corporation holds that because such corporations are operating under a federal charter and provided for in a virtual amendment to the federal reserve act, that they must fall within the jurisdiction of the federal reserve board rather than under a state commission.

CARS SEIZED BY U. S.

National Automobile Conference Arranges to Issue Policies to Owners.

As a result of the supreme court decision that automobiles captured in the transportation of liquor are subject to confiscation regardless of their ownership, the leading automobile insurance companies of the country are preparing polities that will cover the risk of confiscation. The policy is being drafted, it was announced by local insurance men, by the National Automobile conference, composed of insurance companies writing automobile, fire, theft and liability insurance. The policy will protect both owner and dealer against the loss of machines through confiscation by government authorities for transporting liquor.

J. W. Goldsmith, Jr., local automobile dealer, who was plaintiff in error in the test case ruled upon in the supreme court Monday, declared Friday that the issuance of such policies by the insurance companies will meet the situation created by the court decision and operate effectually to relieve conditions that otherwise would work a hardship and injustice not only on legitimate dealers, but also upon innocent purchasers and owners of cars.

"The action of the insurance comcountry are preparing polities that

innocent purchasers and owners of cars.

"The action of the insurance companies in writing a 'confiscation' policy to protect dealers against loss through the seizure by the government of cars captured in the transportation of liquor is the logical and inevitable outcome of the supreme court decision," said Mr. Goldsmith.

"And," Mr. Goldsmith continued. "Such insurance should appeal to innocent owners of automobiles, especially those who employ chauffeurs, for, under the recent court decision, any automobile captured while surgaged in the carriage of liquor is subject to confiscation. In a word, a chauffeur, who has no vested interest in an automobile, may engage in the transportation of liquor for his own use without the knowledge or consent of the owner of the car, wat the resolution is subject.

for his own use without the knowledge or consent of the owner of the car, yet the machine is subject to confiscation just the same.

"Then, too, there are reputable citizens who never traffic in liquor but who occasionally carry a flash on the hip and who ride in their own cars. 'Confiscation insurance will protect them against the loss of their car, if by some mishap or chance it falls into the hands of the prohibition enforcement officers."

Spring-Like Day Given to Atlanta

The fancies of 1,349 young Atlanta men skidded prematurely to thoughts of love Friday, in accordance with poetic custom and the most beautiful spring day any winter has yet brought us. Then, as evidence that this condition will continue Saturday, C. F. von Herrmann leads off with a prediction that that day, too, will be fair and of about the same warmth, or coolth. Which is all right.

The temperature should assert itself in the early morn with a registration of some 40 mild degrees, rising during the day to a vantage point in the high fifties, perhaps. Rain still seems unwilling to cut in on spring's little pre-season practice, and Mr. von Herrmann sees no approaching precipitation.

Tech Draws First Blood by Downing Purple Hurricane; A. A. C. Meets Furman Tonight

showed great adeptness in shooting goals. The game was preceded by a warm-up affair between the Agoga team of the Baptist Tabernacle and the Tech freshmen. In fact, Tech showed everything it has in a basketball way except the numbers on the jerseys, which were, will take its proper place in the basketball world.

The score was 44 to 24, which is

proof, fairly conclusive, that the Jackets have overcome the weakess that eost them the Mercer and Wofford contests, which was failure to cage the ball after it had en passed to within good shooting distance of the basket.

Coming down to brass tacks, the Jackets looked better at goal shooting last night than in any other phase of the game. The passing was ragged in spots and brilliant in others, but throughout the fray the Tech guarding was decidedly loose.

This was probably due to the fact pat "Buck" Flowers was playing is first game at guard, and being

This was probably dust the fact that "Bluck" Flowers was playing his first game at guard, and being an energetic young man, couldn't content himself with guarding. Don't think that the football hero didn't play basketball. He did. A feature of the game was his scoring proclivities. Anytime a man shoots five field goals from a guard's position he is stepping around and that is exactly what "Buck" accomplished.

An entirely freakish goal was scored by Frazier, who rimmed a goal from a tip-off near the end lines but he shot at least six others that were as honest-to-goodness ones as ever dropped in a basket. Tech's most brilliant work, however, was contributed by Jimmle Brewster, who didn't get into the fray until the second half was well under way, but while he was out there he rang five field goals and just seemed to be warming up when the timer's whistle sounded.

About all that can be said of the Furman team was that it was occasionally flashy, but it was foo light to play anything like sustained hasketball against the Jackets. "Speedy" Speer, who was one of the best halfbacks in the south last season, played guard on the basketball team and played the position solendidly, while a sparrow-like little fellow named Wilkins

ship yesterday afternoon, this time taking the measure of the Gordon Cadets, 23 to 15. More than 1,296
fans turned out for the fray and the
best prep game of the season was
dished out. Both teams were in the
thick of the battle from the first to
the last whistle and never before
in prep history were two teams so
evenly matched. The rival basketeers battled nine minutes and
forty seconds before a single score
was registered. Mumford then hit
the rims for a foul goal.

Never before have two teams displayed such fine pass, work. Tech
High played a five-man defense and
the Gordonites had a hard time getting through. The winners had just
a hard time getting through the
defense of the Gordon quintet and
for the first ten minutes it looked
as if th game would end in a 0-to-0
tile. After the foul goal was made
by Mumford, Tech High brought the
ball down under the goal by some
v ry brilliant passing and "Flexible" Williams, the elongated center of the Smithles crew, sent it
through the basket. The Gordonites first field goal was made by
Daniel and it was one of the best
of the entire encounter.

Both quintets had many chances
to hit the bas ', but the sphere
just refused to fall in. For the
rest of the first frame, one team
would make a goal and the other
would do likewise. At the close of
this period Tech High made three
goals in rapid succession and increased its lead to six points, William made a brace and Mumford
one. The half ended with the
Smithies leading, 13 to 7.

Both contestants came back
strong at the jump in the second

fray Nolan Richardson made his
first score of the fray. This score
resulted from another beautiful exhibition of passing, Despite the fact
that the game was hard fought few
fouls were called and on the whole
it was one of the best games played

The second half was even harder

A prize fighter is as utterry ensimilar from a war fighter as a professor of the modern terpsichorean art is from a professor of applied psychology in a great university, and when we discuss the prowess of a prize fighter we should discuss him from a viewpoint of pugilism alone.

I have never particularly wanted to see a prize fighter as handsome as Wallace Reid, or well dressed as John Drew, or as scholarly as G. K. Chesterton, or as scholarly as G. K. Dartmouth Signs Young Coach; Has Many Problems to Battle

When Dartmouth reaches Atlanta on November 26 for her game with the University of Georgia, perhaps the youngest college football coach in the country—certainly the youngest among the eastern mentors—will bring the squad down. Jackson Cannell, recently named football coach at Dartmouth, is just 24 years old, and succeeds Clarence Spears, who made a brilliant record at the Massachusetts institution.

That very success of Spears will mak the task of this youngster a hard one. The schedule outlined by Dartmouth for next season is one of the greatest in the history of 1 college and includes several intersectional battles that will force the New Englanders to the limit. And these hard games follow each other in a seemingly endless procession. For instance, the game with Georgia in Atlanta comes one week after the Big Green team meets Colgate in New York city, a game, we are informed, that has agame, we are informed, Wrestled Gotch.

"Plerson has wrestled Stecher, (...ch, Roller and many of the big men and he is said by Chicago papers to have given Frank Gotch the hardest match he has ever had. Young Ttecher, 'Nebraska Cyclone,' who is making his home in Savannah, came near throwing Pierson in Leesburg recently. Stecher is anxious for a return match against Pierson in Atlanta, as he thinks he can throw my man.

"Pierson served as lieutenant of aviation in France and, distinguished himself by shooting down four planes. He is a good, clean sportsman, adnired by all who know him and I am sure he would draw in Atlanta with any good opponent. Thanking you for any consideration you may care to give this letter, I am, yours truly, (Signed) "RET CROSLEY."

Devoting a couple of days to recovering from that encounter. Cannell's charges will board the cars for their long jaunt to Atlanta to meet an outfit that promises to be much stronger than it was in 1920, when it went through a great schedule undefeated. How much stronger the Athenian Buildog will be remains to be seen, but each Georgia player of 1920 has one or more years to play and reports from Athens indicate the whole squad is coming back, plus one or two additional players who are returning in order to aid the Red and Black through the hardest list of games ever arranged for it.

The following comment was taken from a Boston newspaper:

"The announcement of a contest scheduled by Dartmouth with the University of Georgia for November 26, distance-annihilating reputation of Dartmouth football elevens and will increase much the season's problems for the new head coach. The game comes one week:

"Doc" was a finished athlete during his college days, being the only four "R" man ever turned out at Western Reserve university. He was a star on the football, baseball, track and basketball teams of Western Reserve ano took up coaching immediately after his graduation. He directed athletic affairs successfully in the midwest for a season or two, drifting then to the Pacific coast. He later entered the automobile business, but the present financial readjustment knocked his plans into a cocked hat and he's returned now to his first love.

Clemson has long realized the value of possessing winning athletic teams, and the acquisition of Mr. Stewart is but following out a long-established custom at Clemson that nothing but the best coaching talents be employed to direct the athletic destinies of the college.

Many Graduates Here.

Candidates of Dartmouth residing in Atlanta and vicinity are numerous, and the game with Georgia is being hailed by them as an opportunity to see a great "Big Green" team in action. Numbered among the old Dartmouth men in Atlanta are Walter B. ("Jogger)" E'-k, head football coach at Oglethurpe university; Phil Murdock, who played fullback on the Green team of 1915; Allan Gottschaldt, Guy C. Lewis and many others.

During the past season Dartmouth men were the only eastern griddlists winning over the Pacific coast teams, trimming the Washington State university outfit only one day after completing the long trans-continental journey. The young men who battled under the Green banners the past season were warriors to the manner born and the 1921 machine will fight just as hard.

Intersectional games next year will boost southern football, despite the rip-snorting warnings of Fuzzy. JACK SOUTAR IS DEFEATED BY JAY GOULD

Philadelphia. January 21.—Jay Gould, open court tennis champion of America, successfully defended his title here today, defeating Jack Soutar, world's professional racquet champion, in the second half of the challenge round, 6-0, 6-2. Gould, who also is the national amateur title holder, won three out of the four sets played last Wednesday, which, with the two sets today, gave him the necessary five sets to clinch the title. Of the six sets played, Soutar won only one, and

clinch the title. Of the six sets played. Soutar won only one, and that by the close margin of one game.

At the close of the match Walter Kinsella, of New York, who was defeated by Gould last year, challenged the chambion for another match. The challenge was taken under consideration by a committee of the Philadelphia Racquet club, whose colors Gould wears.
Gould was in splendid form today. He had no trouble with his opponent's "railroad service," lobbed them up, changed his pace and performed almost every trick known to the sport. He stroked the ball with uncanny skill, sending it to the dedans and galleries with such frequency as to baffle the professional completely. Soutar appeared helpless before the brilliant allround play of the champion. Gould gathered 25 points in the first set and 31 in the second, while the best Soutar could do was to collect nine in the first and 18 in the second were prohably the most spectacular. Ho obtained vantage on a beautiful corner shot which took two walls and the floor, and left Soutar swinging. Soutar, in trying to win a chase, dashed high over the dedana, and Gould anticipating the shot, dashed to the ne', and just managed to get his racquet on the ball to tip it over.

expressed concerning Jack Dempsey almost every day. It is unnatural that more than half of the
pugilistic followers of America
should want this Frenchman to
separate Jack Dempsey from his
title and such a feeling would not
exist if the people of this country
did not feel deep down in their
hearts that Jack Dempsey was unworthy of his crown as heavyweight champion fighter of the
universe. America is about to disown Mr. Dempsey, and the best indication we've seen yet of America's resolution is that this country doesn't want to see him defend
his title.

Money Plays Important Part in Stock Market

BY R. L. BARNUM

New York, January 21.—Prices of stocks were a fraction lower at the opening of the market this morning, and went lower still during the first hour, when the renewal rate for call money was posted at 7 per cent against 6, the opening rate for practically all of this year. Then, after a short period of inactivity, the whole list, which had only been soft during the early trading, turned weak. General Asphalt, which has had a sensational advance, was one of the leaders in the decline. Coppers were off on the reduction of a quarter of a cent in price of the metal. A further advance in the price of the metal een expected. Steel shares were specially weak on the news that the independents were cutting prices of finished products below those

Today's advance in the renewal rate on call money was accompanied by a hardening in the rates on time loans. As call money here dropped during the past fortnight to 5½, 5, 4½ and even 4 per cent on loans made outside of the stock exchange, with money coming here from the interior this out-of-town money was drawn back home, thus reducing the available supply here. That was one factor in the higher money rates now prevailing. Another was the increased demand for money on the part of many lines of trade, which are now increasing

Mill Situation.

Many woolen mills now have all of the business on their books that can be turned out to be used up to March 27, that is Easter. This is for cloth for both men and women's clothes. Many cotton mills have again started up. Today it was learned that the entire Binghamton, N. Y., plant of Endicott-Johnson is to start up full force to turn out an export order for \$4,250,000 booked yesterday. The order is for 1,500,000 pairs of work shoes, and will keep the plant busy through the winter and into the spring. The silk trade, too, reports greatly

All of this increased business requires more money than was i demand only a very short time ago. However, whether this demand continues to grow depends on the policy adopted by business men in general. Cotton, wool, silk and shoe people all say prices are now general. Cotton, wool, silk and shoe people all say prices are now at rock bottom, but that buying stops as soon as efforts are made to advance prices. This experiment had been repeated several times this week, it was admitted, with very bad results. Ryan Resigns.

John D. Ryan, president of the Anaconda Copper company and the Montana Power company, resigned as a director of the Chicago, Milwaukee and St. Paul railroad, because of Section 10 of the Clayton law which prohibits interlocking directors between companies where buying and selling is done. The Montana Power company supplies water power to a number of large mines and to 438 miles of the St. Paul railroad in Montana and Idaho.

There was another cut of 25 cents a barrel on Pennsylvania crude second within the past ten days. It was also learned that crude oil was accumulating in the mid-continent territory, and because of tight money making the financing of the surplus difficult, prices are being cut 50 cents a barrel below the posted market A reduction in gasoline prices is being predicted as the next step in the oil situation.

J. P. Morgan & Co. is heading a syndicate which is likely to announce next Monday a \$25,000,000 8 per cent 20-year loan to Belgium. Big Surprise.

It is understood that Lackawanna has obtained permission from the interstate commerce commission to capitalize its huge profit and loss surplus by declaring a stock dividend. But that is quite a different proposition.

There was a big surprise in today's statement from Washington of foreign trade for December. Our exports amounted to \$720,000,000, compared with \$677,000,000 for November and \$681,000,000 for December of last year, while imports were \$266,000,000 against \$321,000,-000 for November and \$381,000,000 for December of last year. For the past year our foreign trade made a new high record of \$13,500,000,000, 000, against \$11,800,000,000 for 1919; while our exports increased, imports increased faster. The falling off of over \$1,000,000,000 in our favorable trade balance last year is a favorable factor, in view of condition of "frozen" foreign credits. In view of the recent sharp advance in foreign exchange, these figures are out of date. Advance in exchange reflects falling off in exports, increase in imports and foreign credits being arranged, such as Belgium and French loans. Goods will thus be bought on credit instead of for cash.

Atlantan Asks Tariff to Senators Style Pending Bill Encourage Domestic

BY JAMES A. HOLLOMON. Washington, January 21.—Henry E. Washington, January 21.—Henry E. Watkins, vice president and treasurer of the Empire Cotton Oil company, Atlanta, made a forceful address before the ways and means committee today in behalf of a protective tariff for the peanut industry. Mr. Watkins showed the growing importance of this Industry and argued that a tariff sufficient to allow peanut growers and industrial plants to function independent of the influx of Oriental products

of the influx of Oriental products should be levied.

About twenty-five prominent representatives of the industry from a number of the Atlantic seaboard number of the Atlantic seaboard states were present. The sensation of the meeting came in the address of Dr. George W. Carver, the negro chemist of Tuskeree institute, who startled the committee with more than fifty different products and by-products of peanuts and sweet potagoes, including various breakfast woods, relishes, oils, milk looking exactly like sweet milk and buttermilk, coffee (which he declared superior to all substitute preparations) milk, coffee (which he declared su-perior to all substitute preparations) and a bottle of ink as black as in-digo made from peanuts, and final-ly, he brought down the house with a peanut preparation that he de-clared was a substitute for oysters and which nobody, he said, could tell from the finest Blue Points or Lynn Havens after this peanut oys-ter preparation had been properly cooked.

ter preparation had been properly cooked.

This negro chemist, who has been doing laboratory research work at Tuskegee for eight years, showed a surprising technical knowledge of every angle of his work, and his wit, his repartee, when responding to questions from the committee, and his tremendous fund of actual information caused the committee to grant him unlimited time after his time had expired.

There is a strong demand for protection against the Oriental soja bean and nut oil products, raised by coolle labor, financed by Japanese bankers and imported free and practically all of the democrats of the south are in favor of this proposed protection.

TWO ARE INJURED WHEN PLANE HITS TREE IN 'TAKE-OFF'

Macon, Ga., January 21.—(Special.)—Douglas Davis and John Epps, of Athens, Ga., who were on their way to Jacksonville, Fla., in an airplane, sustained painful injuries and their machine was wrecked, when it crashed into a tree at Central City park this afternoon. Both men were carried to the Macon hospital, where their injuries were attended to.

Davis, the pilot, was rendered unconscious, and was lacerated about the face and head. Epps sustained a broken nose and lacerations.

At the time of the actident the two men had just taken to the air on the next leg of their flight to Jacksonville. The engine failed, and Davis was unable to steer the machine from the tree.

New York, January 21 .- From the utset of the session business on the stock exchange today was marked by an absence of the recent operations of bull pools, and popular issues, together with numerous inconspicuous specialties registered declines of 2 to 5 1-2 points. There were a few isolated excep-

tions, relative firmness being displayed by several of the motors, oils, shippings and food issues, but the day, as a whole, winted to an accession of bearishness in professional quarters. Final dealings when such stocks as steels, equipments and oils were under especial pressure, resulted in a number of severe losses. Sales amounted to 735, 500 shares.

Bankers continued to express confidence in the immediate future of the credit situation, but this failed of reflection in the money market, where rates for demand and time accommodations were again inclined to stiffen.

Advices affecting the domestic industrial situation dealt principally with announcements of further wage reductions, a coal strike in Pennsylvania, suspension of coal shipments from Kentucky fields and moderate revival of activity in the shoe trade. ions, relative firmness being dis-

shipments from Kentucky fields and moderate revival of activity in the shoe trade.

Movements of foreign exchange were chiefly noteworthy for the renewed strength of French remittances, which rose to 677 with a concurrent advance in the Belgian rate and more substantial gains to northern European points, as well as Italy and Spain.

Completion of the \$30,000,000 Belgian loan on a twenty-year, 8 percent basis, was made the basis of much conjecture respecting other foreign underwritings, which now are engaging the attention of American financiers.

The bond market was firm in the main on the smallest turnover of any recent period. Liberty issues closed at variable advances after moderate reactions and other domestic and foreign flotations were disposed to improve. Total sales, par value, \$9,90,000. MACON CONCERN WINS BIG PAVING CONTRACT

Athens, Ga., January 21 .- (Speial.)-At a meeting of the county ommissioners held here Thursday the contract of the Hagedon Con-Ala., for paving the Lexington and Danielsville road, was cancelled and a check for the amount of \$5.000 was forfeited. It seems that his concern was unable to make the required bond, and the ten days allowed by the commissions having expired, the commissioners accepted the bld made by the Davis, Construction company, of Macon.

While this firm has ten days in which to make bond, it is understood that as soon as the contract was accepted, the construction company announced it would have a crew of workmen here to commence work on Monday morning. 000 automobile parties could be taken care of in the beautiful sec-tion of the Yellowstone National park desired by irrigationists.

Chicago, January 21.—Announcement that seaboard exporters were offering to re-sell brought about a collapse of wheat prices today after a bulge due largely to inquiries collapse of wheat prices today after a buige due largely to inquiries from Portugal. The market closed heavy, 3 3-4 to 5 3-4c net lower, with March \$1.54 - 2 to \$1.55 and May \$1.54 3-4 to \$1.55. Corn lost 1 to 1 1-4 and oats 1 1-8 to 1 1-4c. In provisions the outcome varied from unchanged figures to 12c higher.

As much as \$0,000,000 bushels of wheat was said to be wanted for Portugal and during the first half of the day there was a good demand from the seaboard presumably in anticipation of consequent large orders to buy. Later, however, it was said that six months' credit was asked, and that such credits had not been obtainable. Then came word of exporters trying to re-sell, and the market gave way in a hurry. On see break, Belgium and other European countries did considerable buying, but prices failed to rally much. News that India had received beneficial rains offset builish contentions that eventual enactment of an export tax in Argentina was nearly certain.

Corn and oats lacked support, except while wheat was on the upgrade. Oats dropped to the lowest

GENERAL WALKER **DELIVERS LECTURE** TO STUDENT BODY

Emory University, Ga., September 21.—(Special.)—General C. Irvine Walker, honorary commander-inchief of the United Confederate Veterans, delivered a lecture on "Confederate Truths in History," in chapel today to the students of the university faculty members, and Confederate veterans, who were the special guests of honor.

General Walker was introduced by Bishop Warren A. Candler, chancellor of the university, who characterized him as brave in war and a loyal citizen in peace, as well as an eminent authority on Confederate leadership since the day after his graduation from the South Carolina Military academy in 1361, was enthusiastically received by the students and veterans present.

The Emory unit of the R. O. T. C. turnished an honorary escort to General Walker and Confederate veterans on their way to the chapel, and the university orchestra rendered appropriate selections suitable to the occasion.

THOMASVILLE BANK **ENJOYED FINE YEAR**

Closed barely steady.

New York, January 31.—Reports of continued foreign trade depression and apprehensions that the cotton market here for January might be retendered on March contracts, seemed responsible for a very severe break in the cotton market today. March deliveries sold off to 14.64, and closed at 14.65, compared with 15.50 at the close yesterday, with the general market closing barely steady at a net decline of 65 to 35 points.

The market opened barely steady at unchanged prices to a decline of 15 points under overnight selling orders which came partly from the south. The initial prices were better than due on the showing of Liverpool, which led to some pressure right after the call, while there was also considerable Wall street selling and scattering liquidation. After showing net losses of about 30 to 40 points, prices recovered about half their losses on reports of a firmer basis for spot cotton in the south and of continued activity in the demestic goods trade with Fall River sales for the week estimated at 300,000 pieces. Offerings increased on the advance, however, and liquidation became very active during the afternoon, with January selling off from 17.10 to 16.40 and May from 15.40 to 14.74. Closing prices were at approximately the lowest of the day. The statement that the war finance corporation would not assist exports to countries with which the United States was technically at war attracted no particular comment, but notwithstanding the recent firmer ruling of foreign exchange, the reports of continued trade depression in Manchester had a considerable influence. The trading feature was the heavy liquidation by March by both trade and commission house brokers. Exports today, 20,654, making 2,759,039 so far this season. Port receipts, 24,449; United States port stocks, 1,439,966.

and other European countries did considerable buying, but prices failed to rally much. News that India had received beneficial rains offset bullish contentions that eventual enactment of an export tax in Argentina was nearly certain.

Corn and oats lacked support, except while wheat was on the upgrade. Oats dropped to the lowest prices yet this season.

Covering by shorts rallied the provision market from weakness caused by lower quotations on hogs.

In the late trading the heaviest liquidation of the day came on the market, tired holders of long contracts letting go in volume. Mill takings for the week of 255,000 bales against 358,000 this week last year made an unfavorable impression. At no time during the day did any wide reactions from the decline occur.

PROFESSIONAL VIEWS ON COTTON SITUATION

New York, January 21.—(Special.)—The most pronounced weakness was in March contracts, which was occasioned by sales from sources indicating possible re-tendering in March of the cotton now being taken up. Conditions of trade and finance are anything but optimistim, hence we do not expect any material recovery in the price from this level to hold.

J. W. JAY & CO.

New York, January 21.—(Special.)—This decline is, in all probability, due to Liverpool selling on the theory that America has gone ahead too fast in their belief that business will pick up rapidly.

Throughout the week, trade buying on declines has been very noticeable. There is still a local bearish feeling, but with better and more satisfactory reports coming both from the mills and the trade we expect the market to do better slowly.

HUBBARD BROS.

Compared with last season, exports from the United States for the past/week were only 115,000 bales versus 221,000 since August 1. 2.744,000 against 3,617,000. Spinners' takings for the week were only 255,000 against 358,000 last year, thus far this season only 4,970,000 versus 7,263,000 or 2.254,000 less than to even date last geason, when takings for the whole season when takings for the whole season when takings for the whole season to the season of the consensus of opinion in New York is that the market is likely to decline further after the January option is liquidated. Trading in January will cease at noon next Tuesday. After January expires, the market will be deprived of the sustaining influence of manipulation and will have to depend mainly upon the spots demand, which still remains sizek, and trade developments domestic and foreign.

Hope is entertained that the allied reparation commission, due to meet in Paris on the 24th instant, will arrange for a satisfactory settlement with Germany regarding the war indemnity, in which case international political and trade conditions would be improved.

Next Monday the census burean will make report on quantity of cotton ginned to January 1. Returns will run against 10,307,000 last year and 11,049,000 in 1919; about 12.000.000 is expected.

Meanwhile, possible developments in January New York have to be reckoned with 50 far tenders to the extent of about 39,000 bales have been made.

New York, January 21.—(Special.)—Selling in today's marker was experal. Liver.

New York, January 21.—(Special.)—Seli-ing in today's market was general. Liver-pool is influenced by trade duliness and in-creasing memployment in England. Domes-tic traders assisted the easier prices by heavy hedge selling and this brought in liquidation by discouraged longs. As weak-ness developed the downward movement was necelerated. The market may be expected to go lower before the swing is checked. OEVIS BROTHERS & CO.

Says Dr. Edwards, a Well-Known Ohio Physician

Dr.F.M.Edwards for 17 years treated scores of women for liver and bowel ailments. During these years he gave to his patients a prescription made of a few well-known vegetable ingredients mixed with olive oil, naming them Dr. Edwards' Olive Tablets. You will know them by their olive color.

These tablets are wonder-workers on the liver and bowels, which cause a normal action, carrying off the waste ind poisonous matter in one's system. If you have a pale face, sallow look, dull eyes, pimples, coated tongue, head-aches, a listless, no-good feeling, all out of sorts, inactive bowels, you take one of Dr. Edwards' Olive Tablets nightly for a time and note the pleasing results. Thousands of women and men take Dr. Edwards' Olive Tablets—the successful substitute for calomel—now and then just to keep them fit. 15c and 30c.

Reserve System to Stand. Reserve System to Stand.

When informed there has been a number of reports circulating that the republican administration would destroy the federal reserve system, Senator Harding stated that there was no such desire on the part of his party, and although modifications would be applied to the system, it would be improved so as to be of more service to the nation as a whole.

"The republican party claims to have given the inspiration of the federal reserve system," said Mr. Harding, "and certainly we should not desire to destroy that which has been, in a manner, our own work. It is true that we intend to bring about a number of changes in the system, but these will place it in a condition to render better service to the whole country."

This statement of the presidentelect will be of much interest to southerners. Everything has favored the present situation throughout the country with peace undeclared and unsettled conditions prevailing, he stated. But with peace enacted and stated. But with peace chacted and the country once more placed on a sound working basis, normal indus-trial and business conditions are in-evitable, is his opinion.

evitable, is his opinion.

The question of the presidentelect's cabinet is one which has had
the attention of the whole nation
during the past several weeks. With
the time of his inauguration only "I am glad to be here as your next president," he declared, "and you have shown me that you are pleased to have me. I am glad of this opportunity to be with you, and I want your support to stay with me as I serve you as president of the United States."

Cheers for Harding.

As he continued his address, the train slowly, then faster rolled out of the station with the crowd cheer-

Always a Partisan. Yet Harding made the assertion to The Constitution that he has always been a partisan, and intends to remain so in the future. His partisanship of the future will not be that of the past, however, he asserted, but will be mellowed for the best interests of the United States.

the best interests of the United States.

"I am a partisan and I believe in party government," he declared, "but I find myself thinking about public service with a concern of the country which used to be thought of for only the republican party. The interests of my country shall come first."

And he believes he can secure efficient members of his cabinet from the republican party. It is true that he is not yet ready to announce his decisions, and tells newspaper correspondents that they "are only wasting your breath asking about cabinet positions," but indications point strongly to Daugherty and Hays as two of his selections, it is said.

The latest suggestion heard among those close to Mr. Harding is that Charles Evans Hughes, generally regarded as a leading possibility for secretary of state, might be offered the attorney generalship instead, and that the state portfolio might be given to Elihu Root, whose friends-are understood to he bringing strong pressure to bear in his behalf.

In the same quarters it has been proposed that Charles G. Dawes, of Chicago, urged prominently for secretary of the treasury, be given the position of governor of the federal reserve board, leaving the treasury post for A. W. Mellon, of Pittsburg. So far as Mr. Harding himself is concerned, however, he is maintaining silence, and is putting the ware the mine the most silence, and is putting the maintaining silence, and is putting the mine that the mine th nimeer is concerned, nowever, rise maintaining silence, and is puting the whole question over fecision after he returns to Saugustine from his fishing trip.

TENNESSEANS CHAT WITH CHIEF-TO-BE AT CHATTANOOGA

Chattanooga, Tenn., January 21.-

Chattanooga, Tenn., January 21.—A delegation of prominent republicans met President-elect Harding's train at the station here this afternoon and enjoyed a chat with him when he left his private car and walked up and down the platform during the fifteen minutes the train remained here.

Among those to greet Mr. Harding were former Senator Newell Sanders, who has been mentioned for a cabinet job; former National Committeeman Jesse M. Littleton, Congressman-elect Joe Brown, of the third Tennessee district, and several personal friends of the traveler. Mr. Harding refrained from discussing cabinet possibilities and politics during his stop.

LEAPS FROM WINDOW

Washington, January 21.—W. M. Coleman, of New York, general counsel for the Houston and Manhattan Railroad company, committed suicide here today by jumping from the eleventh story of a hotel on Pennsylvania avenue.

Mr. Coleman left a note in his room at the hotel, willing all of his property to his wife. Hotel attaches said there was nothing in the note to explain why he desired to end his life. He was 50 years old and came here today from New York.

Educational Committee of Georgia Association Holds Meeting Here.

The educational committee of the Georgia Sunday School association held its first annual meeting yesterday in the offices of the association at 917 Hurt bullding, and adopted an educational policy for the State Sunday School associa-

tion.

This committee was recently formed by action of the executive committee of the Sunday School association, and includes among its members Professor M. L. Brittain, chairman; Dr. David C. Barrow, Athens; Miss Kate Dozier, Gaines-ville; Professor Jere Pound, Athens; Dr. W. A. Smart, Atlanta; Miss M. Rutherford, Athens; Professor Floyd Field, Atlanta; Professor J. Phil Campbell, Atlanta; Professor J. Phil Campbell, Atlanta; Professor J. For the committee were unavoidably prevented from being present. An educational program consisting of nine items was presented by the chairman, Professor Brittain, and all of these were adopted in principle by the committee. Some of these items which have become well established activities of the association include the promotion of recognized teacher training courses, the use of a circulating library, the holding of five-day schools of methods in towns and cities; giving short courses in Sunday school work in college and seminaries when requested, and co-operating with educational agencies in community programs. The committee authorized the preparation of a reading course for Sunday school workers.

The following committees were appointed to investigate and make

a reading course for Sunday school workers.

The following committees were appointed to investigate and make report at the next meeting of the committee the first week in May: Public school credits for Bible study, J. S. Stewart, J. Phil Campbell, David C. Barrow; week-day religious instruction Dr. W. A. Smart, Professon Floyd Field, Miss Kate Dozies, summer training camps and schools for association leaders, Professor W. A. Sutton, Professor Jere Pound, Miss M. Rutherford and Dr. Thornwell Jacobs.

Banquet to Ashcraft Postponed in Deference To Dinner by Ad Men

To Dinner by Ad Men

The dinner previously arranged by Eugene R. Black, retiring president of the chamber of commerce, in honor of Lee Ashcraft, incoming president, for Monday evening, has been postponed, in deference to the dinner arranged by the Advertising Club of Atlanta, in honor of the president and members of the international executive committee of the Associated Advertising Clubs of the World, which is set for that evening at 7 o'clock at the Capital Gity club. Invitations to this dinner have been sent out to every member of the President's club of Atlanta, in addition to many others prominent in the business and civic life of Atlanta.

Reservations already received from members of the Advertising club indicate that an enthusiastic reception awaits the distinguished officials of the Associated Advertising Clubs of the World, who will be in Atlanta Monday and Tuesday of next week for the purpose of agreeing on plans for the staging of the big convention of Advertising Men in Atlanta June 12-16.

Addresses of welcome will be delivered by Mell Wilkinson, on behalf of the Presidents club; Lee Ashcraft, on behalf of the Atlanta Chamber of Commerce; Paul-Etheridge, for the Fulton county commissioners, and Mayor Key for the

idge, for the Fulton county com-missioners, and Mayor Key for the city of Atlanta.

The advertising women of Atlan-The advertising women of Atlanta will be interested in knowing that Miss Jane J. Martin, head of the New York League of Advertising Women, will be present at the conference, and will be the honored guest at several receptions to be given by the women members of the club.

Alpha Tau Omega Alumni Will Meet Sunday Afternoon

The first meeting of local alumni of the Alpha Tau Omega fraternity with members of the two active chapters at Tech and Emory since the Christmas holidays will be held at the Daffodil Tea Room Sunday afternoon at 6:30 oclock. The affair will be informal and notices have been sent out widely inviting members to attend.

Dinner Will Be Given School of Commerce Instructors Tonight

The instructors of the school of commerce of Georgia Tech will be given a dinner at 7:30 o'clock tonight in the chamber of commerce cafe. A very interesting program of able speakers has been arranged. The committee in charge of the occasion consists of William R. Meyer, chairman, and Z. N. Holler and N. M. Lewis.

POST HOLDS MEETING

The Henry Thomas Ross post, No. 78, of the American Legion, held its first regular meeting of the year on Thursday evening, at its club rooms in the Central building. After the new officers had been installed, nine new members were admitted. Regular business followed. A touch of sentiment and fond memory was brought to the post by a poem to Henry Thomas Ross, the war hero after whom the post is named. The entertainment features of the evening were movies which all enjoyed. A fine program is outlined for the new year.

CHI PHIS OF ATLANTA TO MEET AT LUNCHEON

With members present from seven chapters at the last luncheon, Atlanta Chi Phis are expecting Saturday's weekly luncheon of members of the fraternity to break all records for attendance and enthusiasm. Committees have been appointed from the Emory, Georgia and Tech chapters to boost attendance, and it is expected the luncheons will be of importance in paving the way for the Chi Phi council, which meets in Atlanta during Thanksgiving week.

Asks Police to Find Girls Who Left Home In Car With Two Men

Miss Sara Ellis, 17 years of age, of 215 Ware street, East Point, and Miss Eunice Thrailbill, who lives with Misg Ellis, left home early Friday morning in the company of two young men in a machine and have not been heard from since, the police were informed last night.

W. O. Ellis, father of Sara Ellis, states tnat a friend tried to stop the girls Friday morning when he saw them leaving in the machine. According to Ellis, when the man approached the car to take the girls out, one of the men in the car drew a gun and forced him to back off from the machine. They then drove rapidly off. The only description given is that one of the men was a soldier. a soldier.

Mr. Ellis has asked the police to arrest the girls if they are seen in the company of the two men.

Excellent Coastwise Service Supplied by Merchants and Miners Transportation Company

Atlanta shippers and receivers among those of the large adjacent territory are interested in the continued regular operation of the excellent coastwise service supplied by the Merchants and Miners Transportation company.

This line has been serving Atlantic ports since 1854.

New England merchandise is concentrated at Boston and Providence from which ports steamers sail to Norfolk. Immediate deliveries are made to the leading railroads at Norfolk and through car service used for despatch of tonnage for Atlanta and other centers.

The Merchants and Miners have two sailings weekly, Boston to Norfolk, and one from Providence, at present, but there are usually three sailings from Boston and two from Providence. When tonnage becomes heavier sailings will be increased.

It follows that north-bound shipments for New Englaid via Providence and Boston are well served by concentration at Norfolk, to which point they move over the various routes from this section. The regularity of sailings from Norfolk in sures the desired absence of delay.

The Merchants and Miners weekly sailings between Baltimore, Savannah and Jacksonville, also Philadelphia, Esvannah and Miners weekly sailings between Baltimore, Savannah and Jacksonville, continue with gratifying support from the shipping public.

This company maintains an Atlanta commercial agency, 603 Austell Bidg., with Curtis S. Buford in charge. Elmer E. Hinman is traveling freight agent—(adv.)

Pepto-Mangan Will Fill Your Blood With Vital Red Corpuscies, Able to Stand Cold Weather

Some people dread cold weather. The least frost in the air shrivels them up. They put on heavy flannels, hug the fires and still feel cold. It is pretty safe to say that people like that have thin, weak blood.

blood.

On the other hand you see other people who take on a healthy glow in cold weather. Their blood shows red on their cheeks and the color of their lips is heightened. They step out briskly, breathe in the cold air, and it seems to act like a tonic.

step out briskly, breathe in the cold air, and it seems to act like a tonic.

That's what it means to have plenty of rich, healthy blood. The ozone in cold air touches the good blood in the lungs and puts new vigor into the body. You square your shoulders. The sting of clean, crisp, cold air feels pleasant. You really enjoy the cold.

On the other hand, people with bodies that are fed with weak, impoverished blood, lacking in red corpuscles, hate cold air. Their faces and lips seem to turn blue and look pinched. Their eyes look watery. There's no pleasure in winter for them.

So be sure your blood is healthy. Perhaps it needs a lift right now. Pepto-Mangan will tone your blood up to its normal state. Doctors have prescribed it for years because it has the right ingredients to make new blood. Besides, it is easy to take. Comes in tablet or liquid form. Both have the same medicinal value.

Make certain that you get the genuine Pepto-Mangan. Ask for "Gude's," and see that the name. "Gude's Pepto-Mangan," is on the package.—(adv.)
